

## Additional Study Sessions – Year 11 - 2025

Dear Parents and Carers of Year 11 Students,

Stockport School has invested significant time and funding into the development of this year's **Additional Study Programme**, and I am pleased to share this programme with you and to encourage your child to take up the outstanding opportunities available to them in the build up to their exams later in this academic year. The commitment from our teaching staff has been first class in relation to them giving over their own free time to support our students through this programme. In total there are over **350 additional teaching hours spread over 58 separate days**, on offer to our students in the programme, making it **the most extensive programme we have ever offered**.

This booklet contains details of the Additional Study Programme timetable, which outlines dates and times for the additional study sessions. The programme incorporates:

- **15 Saturdays and 3 Sundays until June.**
- **6 days during the Easter break.**
- **3 sessions during Whit Half Term.**
- **A further 24 hours of online group tutoring being offered out of school hours between now and June.**

It is important that your child takes careful note of the attached timetable and picks up the specific subject sessions on it. You will note that the timetable contains the subject information, including the teacher who will be delivering the additional study session for each subject (*please note that in some instances it may not always be your child's usual teacher*). The rows coloured orange are after school sessions.

Students who wish to attend are not required to wear school uniform for any of the sessions advertised but should of course come dressed and equipped appropriate for study. Students must enter and leave via the Mile End Lane gates, sign in at the attendance desk, and be registered in class by their teachers. In the unlikely event of a fire alarm, staff and students should evacuate the premises as normal and line up on the school playground to be registered. Staff will allow students a short 10/15-minute break part way through each of the sessions, but no refreshments will be available to purchase on-site during the additional study dates, and students are asked to bring their own snacks and drinks on the dates that they attend.

Students will be reminded in advance by their subject teachers of the sessions as they occur, and attendance at the additional sessions is of course completely voluntary, but **we would emphasise the importance where possible in your child attending the additional sessions to benefit their overall learning**. In relation to this, there is **considerable evidence to suggest that students who attended after-school enrichment sessions and the additional study programme over the past few years have then gone on to perform exceptionally well in their external exams**.

We would also obviously ask you as parents and carers to support us by encouraging your child to take up the opportunities on offer to them, both during enrichment and via the additional study programme, to help maximise their exam performance.

Yours faithfully,

Mr I. R. Irwin
